DETAILED ACTION

1. The preliminary amendments of 12/20/2005 have been entered in full. Claims 1-44 are cancelled. Claims 45-61 are under examination.

Election/Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 45-56 and 61, drawn to an in vitro method of generating insulin producing beta cells.

Group II, claim(s) 57-60, drawn to a method of prevention or treatment of diabetes type 1 or type 2 comprising administration of a therapeutically effective amount of a combination of a human or humanised ligand of a EGF receptor, and a human or humanised ligand of the gp130 receptor.

3. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:
4. Group I recites the special technical feature, an in vitro method of generating insulin producing beta cells, which is not required by the methods or the products of Group II. Group I comprises the first recited method and product (a cell population).

Art Unit: 1647

5. Group II recites the special technical feature, a method of prevention or treatment of diabetes type 1 or type 2 comprising administration of a therapeutically effective amount of a combination of a human or humanised ligand of a EGF receptor, and a human or humanised ligand of the gp130 receptor, which is not required by the methods or the products of Group I.
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
